# Top Mobile Apps for Common Core Education

**As Common Core State Standards and other assessment initiatives are adopted by schools throughout the country, a growing selection of free and low-cost Windows tools is available to help students, teachers, and schools prepare for success under the new mandates. Here is just a small sample of the possibilities:**
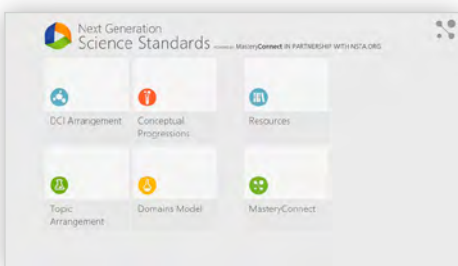

## Common Core State Standards

| Author: | MasteryConnect |
|---|---|
| Audience: | Educators, Instructional Technologists, Parents and Students |
| Price: | Free |

With over 650,000 downloads, this is perhaps the most commonly used Common Core reference for students, parents, and teachers. Organized by subject and grade level, it includes both math and language arts standards for K-12 students.

MasteryConnect also offers a free web-based solution for teachers and parents to track student progress against Common Core standards.
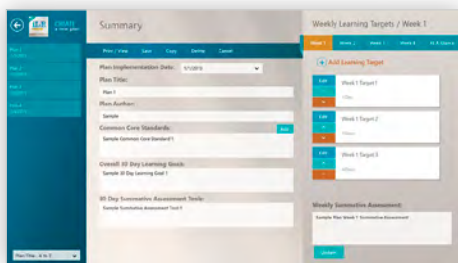

**Download it at the Windows 8 Store or publisher's site.**

## Next Generation Science Standards

| Author: | MasteryConnect |
|---|---|
| Audience: | Educators, Instructional Technologists and Parents |
| Price: | Free |

Released to complement the Common Core Standards app, this reference to science standards is searchable by topic or keyword. Provided in partnership with the National Science Teachers Association, it's next-gen science via the power of Windows.

**Download it at the Windows 8 Store or publisher's site.**

## iLessonReady

| Author: | Studer Group |
|---|---|
| Audience: | Educators and Instructional Technologists |
| Price: | Free |

iLessonReady™ is a lesson development tool for educators that offers easy integration with Common Core State Standards. It breaks down Common Core standards into 30-day learning goals and incorporates learning targets, tasks, feedback strategies, and assessments aligned to those specific skills outlined in the Common Core curricula.

**Download it at the Windows 8 Store or publisher's site.**

## iTooch Elementary School & Middle School Apps

| Author: | EduPad |
|---|---|
| Audience: | Educators and Parents |
| Price: | $4.99 per app |

iTooch offers numerous language and math apps for students in grades 3-8 with exercises aligned to Common Core curricula. 1,500-6,000 exercises are included per individual app, with badges and achievements to support a game-like dynamic. An integrated calculator and lesson plans are included.

**Download it at the Windows 8 Store or publisher's site.**

## Planning a Common Core or digital assessment implementation?

**Windows education apps are a great match for Lenovo's classroom-ready portfolio of products and services. Students get innovative tools and resources, IT gets reliability and easy integration with your learning and technology ecosystems. To learn more, visit www.lenovo.com/education.**
