Microsoft is rising to the challenge and is helping 'Shape the Future' for today's students in K-12 schools. Microsoft's EDU programs offer \$1bn in savings and continue to empower new ways of teaching and learning by bringing technology to students & faculty. CCSS & PARCC standards are transforming the face of education as we know it today. Microsoft is delivering the requirements for building 21st century skills among today's children.

"Microsoft Office was the only software package to appear among the top 20 skills required for high-growth/high-salary positions, coming in at number 3 on the list..." – IDC, October 2013

Students are required to be able to type two pages in one sitting

Constructed responses and performance tasks will be web-based

Tests and assessments will be conducted online

Constructed responses and performance tasks will be web-based

Microsoft delivers immersive learning experience, fluid teaching environment, full productivity platform, secure content management, and prioritized child safety
